Introduction: The history of apnea	1
Origin of apnea: from myth to history	2
History of the records: the first by a Greek fisherman	7
The apnea of the women	16
The disciplines	18

Part one BEFORE ENTERING THE WATER

1. Approaching apnea	21
1.1 The first rule: verify psychophysical conditions	21
1.2. From mask to ballast: how to choose equipment	24
<i>A brief history of masks, 25; Getting dressed, 31; Instruments, 32; Other accessories, 33.</i>	
2. Adapting the body to water	39
2.1 The physics of immersion	40
2.2 The oxygen cycle	46
<i>Cardiovascular system, 46; Cardiac cycle, 48; Respiratory system, 51.</i>	
2.3 Underwater vision	64
2.4 Heat	68
3. Adapting the body to apnea	69
3.1 Aquatic nature of man	70
3.2 The dive reflex	73
3.3 Blood shift	77
3.4 Ears, nose, mouth	79
<i>Prevention and hygiene, 86; The Proplug, 88; Periodic check-ups, 88.</i>	

Part two THE ART OF NOT BREATHING

4. Breath and relaxation	95
4.1 Stress, anxiety and boredom	96
<i>What happens to our body during anxiety?</i> , 97; <i>Avoid stress by understanding it</i> , 98; <i>Causes of stress in apnea</i> , 100.	
4.2 Techniques of respiration	102
<i>Improving the elasticity of the ribcage</i> , 103; <i>Exercises for the improvement of the elasticity of the ribcage (costovertebral and intercostal joints)</i> , 104; <i>Yoga breathing techniques</i> , 109; <i>Exercises to improve respiratory sensitivity</i> , 110; <i>Pranayama</i> , 113; <i>Diaphragmatic respiration</i> , 116; <i>The carpa</i> , 124.	
4.3 Techniques of relaxation	125
<i>Relaxation</i> , 126; <i>Mental effects of relaxation</i> , 127; <i>Physical effects of relaxation</i> , 127; <i>How to relax</i> , 128.	
4.4 Mental training and apnea	131
<i>Autogenic training</i> , 131; <i>Relaxation with colours: Katabasis</i> , 133.	
5. Underwater relaxation	137
<i>The coconut, coral and the sea: small story, almost Zen</i> , 137; <i>How to prepare for a static apnea</i> , 138.	
5.1 Static apnea	138
<i>Stopwatch: pros and cons</i> , 139	
5.2 Dynamic apnea	143
5.3 Freediving	144

Part three BECOMING AN APNEIST

6. The Finstroke	149
6.1 Biomechanical analysis of finning	150
<i>Axes and planes of the human body</i> , 152-153.	
6.2 Ideal finning technique	158
<i>Velocity and constant weight</i> , 160-161.	
6.3 Different ways of finning	162
6.4 Errors of finning	165
6.5 The Monofin	187
<i>Preliminary monofin exercises</i> , 190; <i>Exercises with the monofin</i> , 193.	
7. Compensation	195
7.1 Compensatory manoeuvres	196
<i>Valsalva technique</i> , 197; <i>Marcante-Odaglia technique</i> , 198; <i>Personal techniques</i> , 200.	
7.2 Using the diaphragm to compensate	201
7.3 Tubular aerobics	202
<i>The purposes of tubular exercises</i> , 202; <i>Muscular exercises</i> , 202; <i>What, when and how much to exercise</i> , 203; <i>Autoinsufflation</i> , 205; <i>Warning</i> , 205.	

7.4	Compensating the mask <i>Colds, sinusitis and other otorhinolaryngological problems, 210.</i>	209
7.5	Compensating at the depth limit	213
8.	Formation in confined water	215
8.1	Swimming <i>Freestyle, 216; Some advice to improve breaststroke, 220; Breaststroke, 221.</i>	216
8.2	Exercises with free body <i>Breathing exercises in water, 226; Compensation in assisted vertical descent, 227; Underwater Breaststroke, 227; Folding duckdive, 229; Dolphin diving; 231; Recovering objects, 232; Buoyancy with free body, 234; Static apnea, 235; Analysis of a static apnea, 235; Partial exhale apnea, 236; Full exhale apnea, 238; Forced compensation, 239; Exercises of displacement, 240; Flotation exercises, 244.</i>	226
8.3	Exercises with equipment <i>Weighting, 246; Quick release of the weightbelt, 247; Clearing the mask, 248; Duckdives, 249; Putting on equipment underwater, 252; Simulated recovery of a victim, 254; Ascending with difficulty, 256; Dynamic apnea, 257; Vertical finning apnea (hands on the bottom), 258; Translation on the bottom, 259; Horizontal finning apnea (hands on the wall), 260; Mixed underwater swimming legs/arms, 261; Stop and go, 261.</i>	246
8.4	And now, apnea games <i>Games for static apnea, 262; Games for dynamic apnea, 264.</i>	262
9.	Formation in open water	267
9.1	The ocean planet	268
9.2	The movements of water <i>Anemometric Beaufort scale, 274-275.</i>	272
9.3	Freediving in open water <i>Analysis of a dive into the blue, 292-293.</i>	283
9.4	Recovery of a victim	295
9.5	Apnea games in open water	296
10.	Safety	299
10.1	Dangers of apnea <i>Hyperventilation, 302.</i>	306
10.2	Prevention <i>The dive plan, 307; Recommendations to the apneist, 312.</i>	314
10.3	Hand signals	312
10.4	Diet and protection from cold <i>Good dietary rules, 317.</i>	314
10.5	Managing an emergency <i>Pre-arranging emergency procedure, 320; How to handle an emergency in the sea, 320; First aid, 327.</i>	319
11.	Training for apnea	329
11.1	Physical preparation of the apneist <i>Running, 332; How to organise training, 333; Swimming, 333; Weight training, 337; Stretching 338.</i>	330

11.2 Training in water	342
<i>Training static apnea, 344; Training dynamic apnea, 347; Training freediving, 351.</i>	
11.3 The yearly training program	354
11.4 Evaluation of base physical parameters	357
<i>Apnea Academy</i>	361
<i>Bibliography</i>	363
